

IMAGE IS EVERYTHING.

Choosing Ink Colors

Standard ink colors (the 25 inks shown on this page) are available at no extra charge when you order by our ink number (e.g., Red 10). The colors shown are not exact color matches.

Varnish is also available.

Please specify Varnish #18 (not shown) when ordering.

PANTONE® color matches are available for an additional charge of \$50(G) per color for new and repeat orders.

If an exact sample match is important, please provide a sample to match. A sample match is available for \$50(G) per color on new and repeat orders.

PANTONE® is the property of Pantone, Inc.

Stock Choice Affects Ink Color

Ink colors will not appear as sharp and brilliant on matte or EDP Smudgeproof stocks as they do on gloss or coated stocks. Samples are available, please ask. Ink density and shade will vary widely depending on label stock and background color.

Selecting Your Typestyle

- ✓ All typesetting is FREE.
- ✓ Ask us to "set best way."
- ✓ Match type from sample or provide font name.
- ✓ Specify your own or choose from one of our popular styles below.

CONCENTRATE

For easy removal of sheet flooring, carpet, other floor coverings & adhesive residues.

1 Quart (946 ml)

THOMAS PROFESSIONAL

The Professionals Choice

Industrial Strength Adhesive Remover CONCENTRATE

PLEASE READ ALL INSTRUCTIONS AND WARNINGS BEFORE USING.

THOMAS Adhesive Remover is a concentrated adhesive remover that breaks down the bond between most well-known adhesives and floor coverings. THOMAS Adhesive Remover is to be diluted with water and applied over the top of the floor covering. After THOMAS Adhesive Remover penetrates the floor covering and has broken down the adhesive, usually in 1 to 2 hours, the existing flooring cover and adhesive can be removed. Once all of the residue from the flooring and adhesive has been completely removed and the floor has been rinsed thoroughly with water and ALLOWED TO COMPLETELY DRY, new floor covering can be installed.

Use For Removing: Sheet vinyl flooring, linoleum, vinyl and non-vinyl backed carpet and the associated adhesive, THOMAS Adhesive Remover must be able to reach adhesive underneath flooring in order to work properly.

Coverage: Up to 454 sq. ft. 1 quart concentrate yields 1,125 sq. ft.

VOC Content: 825 g/L calculated

ANTES DE USAR, LEA LAS INSTRUCCIONES Y ADVERTENCIAS.

Easy Release de THOMAS es un eliminador de pegamento concentrado que desmenuza la unión entre la mayoría de los pegamentos con base agua y diversos materiales usados para cubrir pisos. Adhesive Remover de THOMAS se diluye con agua y se aplica sobre el material que se desea eliminar. Después de que Adhesive Remover de THOMAS penetra el material y desmenuza el pegamento, le cual puede tomar entre 1 y 2 horas, puede quitarse todo el material del piso como el pegamento. Una vez completamente eliminados ambos y después de haber lavado bien el piso con agua y DEJANDO SECAJADO POR COMPLETO, podrá instalarse la nueva cubierta para el piso.

Usa como removidor: Pisos vinílicos, linóleo, alfombras con soporte vinílico y no vinílico, así como el pegamento correspondiente. Para poder actuar, Adhesive Remover de THOMAS deberá poder entrar en contacto con el pegamento que está siendo depurado.

Recomendación: Use 454 g/L. Con 1 cuarto de galón del concentrado se pueden cubrir 1,125 metros cuadrados.

VOC Content: 825 g/L calculado

Process Color Labels

Here's What You Get:

- ✓ 150 line screen
- ✓ UV Varnish at no charge
- ✓ 500 to 1,000 labels per roll
- ✓ Labels are finished on rolls
- ✓ No separation charges

Free White Ink Backup

If your labels will be printed on clear material, we recommend a white backup ink to increase readability. There are three ways we can print the backup ink.

1. Halo around the image area.
2. Full background on the entire label.
3. Partial background behind the image area only.

Ordering is Easy

- 1 Select Label Shape and Size
- 2 Select Your Stock
- 3 Select optional additional spot ink color or foil imprint
See page 2 for our 25 standard ink colors.

PREMIUM LABELS

Static Cling Labels

Here's What You Get:

- ✓ Free single percentage screen
- ✓ Labels are finished on rolls.
Ask about other finishing options.
- ✓ Flexographically printed
- ✓ Please specify face or back cling.

Free White Ink Backup

If your labels will be printed on clear material, we recommend a white backup ink to increase readability. There are three ways we can print the backup ink.

1. Halo around the image area.
2. Full background on the entire label.
3. Partial background behind the image area only.

Ordering is Easy

1 Select Label Shape and Size

2 Select Your Stock

3 Select 1 to 3 Inks and Typestyle

or let us use our expertise to select one for you. Give us your artwork/logo with your color choices indicated.

* These light colors are ideal for background colors, but may not be appropriate for type.

These Barcodes Are Designed to Scan

We can print your design plus a barcode or leave a space for on-site coding.

- ✓ **Nearly Any Stock, Any Size Label** can be barcoded and/or custom printed in up to seven colors. The key to scanability is high-contrast, accurate printing and flawless stock.
- ✓ **2d, Static and Consecutive** barcodes are available and we can supply printed or blank stock for on-site bar coding. Static UPC coding may be added at no charge. Note: All consecutive barcoding is priced on a per-job basis. Please ask for a quote.
- ✓ **Human-readable numbers** will be printed unless otherwise specified. Include previously printed barcode if available. GS1 US (GS1US.org) will provide the manufacturer with system number and manufacturer ID number for all UPC barcodes.
- ✓ **Consult your scanner dealer** for answers to specific questions. The barcode symbology you need will be determined by your scanner and application.

| Barcode | Type of Code |
|--|--|
|  1 2 3 4 5 A B C D E | Code 39 (alphanumeric) General purpose. Static or consecutive. Our most commonly requested barcode. |
|  01234565 | Interleaved 2 of 5 (numeric only) Higher density. Static or consecutive. Requires an even number of digits. Uses include distribution and warehouses. |
|  | Code 128 (alphanumeric) High density code designed for complex product identification. Static or consecutive. Specify subset A, B, or C. Used where a large amount of data must be encoded in a small space. |
|  0 1234567890 5 | UPC-A (numeric only) Universal Product Code (mainly in U.S. retail). Static. Encodes 12 numbers. The first 6 (or more) must be assigned by the GS1 US (see note at above). |
|  0 123456 5 | UPC-E (numeric only) Abbreviated version (6 digits) of UPC-A used on small products. Static. Available for some UPC-A codes, check with the GS1 US for availability. |
|  0 123456789050 | EAN-13 (numeric only) International product identification code. Static. Encodes 13 characters, and the first 7 (or more) must be assigned by the GS1US (see note at above). Replacing the UPC-A for international trade |
|  123456789012 | Codabar (numeric only) High density code. Static or consecutive. Specify start character A, B, C or D. Uses include blood banks, libraries, and airbill tracking. |
|  | PostNet (numeric only) USPS automated mail sorting |

Helpful Information

Free Services

- ✓ Bleeds and Reverses
- ✓ Enlarging/reducing art
- ✓ Typesetting copy/match type
- ✓ Minor touch-up to art
- ✓ Static Bar Codes
- ✓ Press proofs on orders over \$5,000 (A)
- ✓ Plates – single design
- ✓ Single percentage screens

Terms and Conditions

Cancellations

- ✓ No charge if made by 4 p.m. CT the day order is placed.
- ✓ After 4pm CT the day the order is placed, but before the job is printed, will result in a minimum charge of \$44(G) per design.
- ✓ Jobs cancelled after printing will be invoiced at full price.
- ✓ Cancellations on 24-hour products will result in a minimum charge of \$44(G) per design.
- ✓ Cancellation on all other orders will result in charges determined by order status and materials already purchased at the time of cancellation.
- ✓ Additional charges for artwork revisions may apply to cancelled jobs.

Changes

- ✓ No charge if made by 4pm CT the day order is placed.
- ✓ Changes made on jobs before printing will result in charges determined by order status and materials already purchased at the time of the change.

Shipping Options

Quick Ship Products (Pages 2-9): Shipped for next afternoon delivery at ground shipping and handling rates.

Standard Shipping: Orders will be shipped ground unless otherwise specified. Handling charges may apply.

Overnight Shipping: Next Day shipping and handling charges will apply.

Drop Shipments: May be arranged at the time you place your order. Extra charges may apply

Second and Third Party Billing: Handling charges will apply.

Copyright Notice

The information in this catalog, unless otherwise noted, is the property of the Printer and may not be reproduced without written permission of the Printer.

When orders are manufactured to customer's specifications, the purchaser agrees to assume any liability resulting from actions or demands brought against the Printer for patent or copyright infringements.

Production Times

- ✓ Production times are in working days (Monday – Friday excluding major holidays) and assumes that all information and artwork necessary to produce the order is supplied when order is submitted.
- ✓ Time necessary to obtain additional information may delay shipment. Proofs may also lengthen production times.
- ✓ Assumes order and any artwork are received no later than 4 p.m. CT. For example: on a five day order – an order received on Monday will ship the following Monday.

Production Upcharges

Artwork

Extensive rework Call for estimate
Halftones \$50(G) each
Graduated Screens \$50 (G) per color, per design

Inks/Colors

Backsheet printing \$38(G) set-up plus add'l ink charge
PANTONE® color match \$50 (G) per color, per order
Match to any sample \$50 (G) per color, per order

Proofs

Email/Fax proofs \$18(G) per proof
Color print proofs \$44(G) per proof
Press proofs \$50(G) per color, per proof

Finishing

Short rolls/short stacks \$0.38(G) each
Dispenser boxes, unassembled \$0.50(G) each

Production

UV Clear Coat set-up \$60(G) per order
Rush. Call for estimate & delivery schedule

Reorders, Reprints and Press Proofs

All original charges may apply

Over-runs and Under-runs

We will ship and charge you for up to 10% over or under specified quantity. An additional charge may apply for exact quantity.

Combined Pricing

May be available when the same label shape, size and printing press is used to print different stocks, ink colors or artwork versions. Please ask if your order may qualify for combined pricing.

Special Production Option

Labels for Machine Application

These labels usually have specific requirements for stock, adhesive, spacing between labels, roll size, core size and unwind direction (the direction copy is oriented on a finished roll). There are 4 primary unwind directions, please specify which direction is needed.

For quickest turnaround, please provide us with these requirements when you request a quote or place an order. If available tooling is not compatible with the copy position requested, a tooling charge may apply.

Lamination and Protective Coatings

A protective coating is recommended if your labels will be exposed to chemicals, abrasion, moisture, freezing temperatures, or frequent handling. Protective coatings do not provide protection from color fading caused by prolonged exposure to the sun and will not make a paper or foil stock more durable if it is used outdoors.

Varnish is an inexpensive coating that is applied during the printing process. Varnish provides limited protection from cracking, peeling and flaking that can occur with frequently handled labels. Also provides protection in refrigerator and freezer environments.

UV Clear Coat is a coating that is applied after the labels are printed and before they are die-cut. This coating gives labels a hard, semi-gloss finish which resists fingerprinting, abrasion, light surface moisture and exposure to chemicals and solvents. UV Clear Coat will not prevent fading and will not make a paper or foil label more durable in outdoor or harsh conditions.

Lamination is a premium protective coating where a poly film is fused to the labels after they are printed and the ink is dry. Lamination offers the best resistance to handling, chemicals and scratches or abrasion. Lamination will not prevent fading.

Consecutive Numbering

Can be added to almost any label with any start or stop number and is available in a variety of heights.

Backsheet Printing

We can print on the back of label's liner on most products.

Bleeds

Can be added, free of charge, on most labels.

Reverses

Can be printed on almost any label. Not recommended for type smaller than 7 pt.

Screens

A screen is defined as a dot structure of graded density. We will create the screen effect for best print quality.

Halftones

We can create a halftone from your original continuous-tone art or photograph. Please do not send pre-screened black-and-white art, it will delay your order.

Blank Labels

Available for a 20% discount off the prices shown unless blank pricing is specified.

Ink Choices

Standard Ink Colors

Choose from 25 colors and varnish at no charge on most labels. Please specify by using our ink numbers (e.g., Red #10) shown on inside front cover.

Pantone® Color Matches

Including metallic, fluorescent and pastel colors.....\$50 (G) per color

Sample Color Matches

Send us a sample and we'll match the color.....\$50 (G) per color

Specialty Inks

Glitter, US, Scented and Scratch-off inks are available. See a sales associate for details.

White Ink Backup

If your labels will be printed on clear stock, we recommend printing a white backup ink to increase readability. We offer this free of charge. There are three ways we can print the backup ink:

1. Halo around the image area – white will show slightly
2. Full background on the entire label
3. Partial background behind the image area only so the white will not show (not available for small type, behind white printing or detailed work).

Helpful Information

Specialty Inks

Scented Inks help create an added dimension by using encapsulated fragrances to “scratch’n sniff.” Standard scents include rose, lemon, lavender, strawberry and vanilla. Many other scents are available.

Glitter Inks add sparkle to enhance the label design. Several glitter effects are available.

UV inks provide strong, vibrant colors, superior print quality and consistency, particularly on films. Also hold very small and reverse type.

Extended-life Fade-Resistant Inks are ideal for decals designed for prolonged outdoor use.

Artwork Guidelines

For best print quality and quickest turnaround, please provide your art following these recommendations.

Design software

- ✓ Preferred format: Illustrator
- ✓ Supported formats: QuarkXpress, Photoshop, InDesign
- ✓ Please note with your order the platform, software, and version used to create your art.

Electronic Art

- ✓ Use the preferred format for best results.
- ✓ Include all linked images and original files.
- ✓ Convert all fonts used to paths or outlines; otherwise, send all screen and printer fonts.

For art that must be sent in the supported formats:

- ✓ Not recommended for spot color printing.
- ✓ Spot colors must be separated using channels or separate files.
- ✓ 300 dpi minimum at 100% for grayscale and CMYK files
- ✓ 600 dpi minimum at 100% for bitmap files

Art for CMYK Printing

- ✓ Files must be color correct and in CMYK mode.
- ✓ PDF files cannot be used unless accompanied by all supporting files
- ✓ 8 pt is the smallest type size for CMYK build.

Flexographic Printing Requirements

- ✓ Create your artwork the exact size of the label.
- ✓ Include crop or corner marks or a die line to show position.
- ✓ Extend any bleeds $\frac{1}{8}$ " outside the edges of the label.
- ✓ If your design doesn't bleed, set it in at least $\frac{3}{32}$ " from the edge of the label.

- ✓ Use a minimum rule weight of .07" or 5 pt for positive copy. For reverse copy, the minimum rule line weight is .10" or 7 pt.
- ✓ With spot color printing, the smallest type size is 5 pt for positive copy and 7 pt bold for reverse copy.

Artwork Services

We can provide extensive retouching, creating original artwork, color separations and screen replacement. Prices will vary depending on the service required, please request an estimate.

Please do not send

- ✓ Faxed artwork
- ✓ Negatives
- ✓ Pre-screened art
- ✓ Word or Excel files

Free Artwork Services

- ✓ Adding bleeds and reverses
- ✓ Typesetting your copy
- ✓ Enlarging or reducing your artwork
- ✓ Performing minor touch-ups to your camera ready art

Proofs

Choose from one of four options, but please note that requesting a proof will extend total production time. Actual proof time depends on the type of label product and type of proof requested.

Email Proofs

We will provide a proof via email unless otherwise specified. Note: The colors shown on a computer monitor will not match the final printed product.

Fax Proofs

We will fax the proof at your request

Color Print Proofs

These proofs provide an approximate color representation of your label. Please note the colors will not match the final printed product.

Press Proofs

These are actual samples off the press. Press proofs are ideal where color, adhesive, suitability in printers and application machines, and overall appearance are critical.

Available Stock Types

Please request a sample for testing in any application not specifically recommended.

White Gloss: For a lustrous appearance. Used when it is not necessary to write or type on the label.

White Matte: Excellent for labels to be written on or typed on. Correctability may be limited on some typewriters.

White EDP Gloss: Gives the same lustrous appearance as White Gloss, but is designed for use with typewriters and non-laser computer printers. Correctability may be limited.

White EDP Smudgeproof: A porous, absorbent stock designed for excellent printability and the smudge resistance necessary in non-laser electronic data processing and high-speed imprinting. Not recommended for screens or fine-detailed graphics.

Fluorescent: A bright Dayglo™ matte paper available in red, orange, chartreuse, pink and green. Printing in black ink is recommended.

Foil: Provides a metallic appearance. Available as shiny or dull in gold and silver.

White Vinyl: Durable, weather-resistant and can be used indoors or outdoors as well as in some harsh environments.

Clear Vinyl: A durable and weather-resistant material that appears nearly clear when applied. We recommend printing white ink behind the image area for greater readability. Adhesive is available on either the front (face) or the back, depending on the viewing direction.

Static Cling Vinyl: This Clear or White Vinyl has a static charge that allows it to stick without adhesive to most smooth, clean surfaces such as glass, plastic or baked-enamel finishes. Leaves the surface clean when removed or repositioned. Clear Static Cling stock is available with static on the front (face) or back. White Static Cling stock is available with static on the back.

Polyester: A highly durable synthetic film used primarily for outdoor applications involving high levels of abrasion or abuse. Polyester will stand up longer in a moist environment and is resistant to most oils and solvents.

For added durability we laminate some polyester decals at no additional charge. Available in white, silver and gold.

Thermal: Thermal Transfer and Direct Thermal stocks are guaranteed to be compatible with leading printers and scales. Stock activates at 185°F. The ultra-smooth surface and special adhesives allow excellent scanning and instant adherence to corrugated boxes and shrink-wrap film.

Piggyback: These labels are on two liners so the top label can be removed and re-applied to another surface. Piggyback labels are available in blanks for peel-off address labels or custom-printed. Ask for details and prices.

Laser and Inkjet: For laser and inkjet printers. A wide variety of stocks are available. See pages 40-41.

Tag: Non-pressure-sensitive in a variety of stocks from polystyrene and thermal transfer to paper and HDPE.

Environment Matters

If your label or decal needs to perform where it is damp, cold, hot, abrasive or exposed to chemicals and solvents, please let us know.

Adhesives at Work

Some surfaces such as wood, silk and suede may be damaged by any adhesive. Request a sample label to test before applying.

Permanent adhesive is supplied unless you request otherwise. This is a general purpose adhesive appropriate for most applications.

Removable adhesive will allow the label to be taken off once it is applied without leaving pieces of the label behind. Note, however, that a label will become permanent over time or with exposure to weather.

Ultra-removable adhesive is an excellent alternative to static cling. It adheres better than static and removes just as easily. Available in both white and clear polypropylene.

Removable and repositionable adhesive (PressAbels™) allows the label to be removed and reapplied with no residue on a wide variety of surfaces. This adhesive will remain temporary throughout its product life. This product is not recommended for use on fabrics.

Wide-temperature adhesive is designed to stick in very cold (to -65°F) and very hot (to 150°F) temperatures. This adhesive becomes permanent after 24 hours and will adhere to vinyl surfaces.

Opaque adhesive obscures the application surface so it doesn't "show through" the label stock. This is useful if you are using a label to cover erroneous or outdated information, or if the surface color could affect the appearance of the label. The opaque adhesive might slightly affect the appearance of ink color and requested color matches.

Labels, Decals and Tags Are Used Everywhere With a Multitude of Uses and Applications.

These markets are large users that continue to drive demand for the products found in this catalog, including:

Product Labels

The “billboard” that sells the product. From simple spot colors to vibrant process printing these types of labels are found on pages 2 – 18

Window/Cooler Decals

Windows or freezer doors are a great place to advertise and use static cling labels, found on pages 16 and 17.

Parking Stickers

Control parking access and traffic with numbered window stickers, found on page 22.

Oil Change & Service Stickers

These handy static cling labels notify customers of vehicle service and maintenance, found on page 16 – 17.

Bumper Stickers & Decals

The signs that go everywhere and promote dealerships or specialty automotive products, found on pages 20 – 21 & 24 – 27

Magnets

Show school pride for a team, a university, or to provide positive reinforcement. Magnets have limitless shapes and applications. These products are found on pages 32 – 33.

Sports Schedules

Support the team with creative sports schedules on mouse-pads, hang-tags, or magnets.

Plus many more ideas throughout the 2013 catalog.

Product Labels

Window/cooler decals

Butt-Cut Labels Have Square Corners

Rolls or Sheets? Butt-cut labels have no excess material around the labels and can be produced:

- ✓ On rolls
- ✓ As individual sheets with a 1/8" bend-and-peel strip.
Minimum size on sheeted labels is 1" x 2 1/2" including the strip

Ink on Roll Labels

If your design doesn't bleed, there must be a 1/16" ink-free margin all the way around the outer edge of the label.

To find the square inches of your label, multiply the width by the length.

Decimal Conversions

1/8" = .125" 3/8" = .375" 5/8" = .625" 7/8" = .875"

1/4" = .25" 1/2" = .5" 3/4" = .75"

Die -Cut Label

Butt-Cut Label

Label with Bend-and-Peel Strip

Bend-and-Peel can be positioned anywhere on the label.
