Who uses drum, bucket & pail liners.

Medical & Pharmaceutical

Food Processing

Paints, Inks & Adhesives

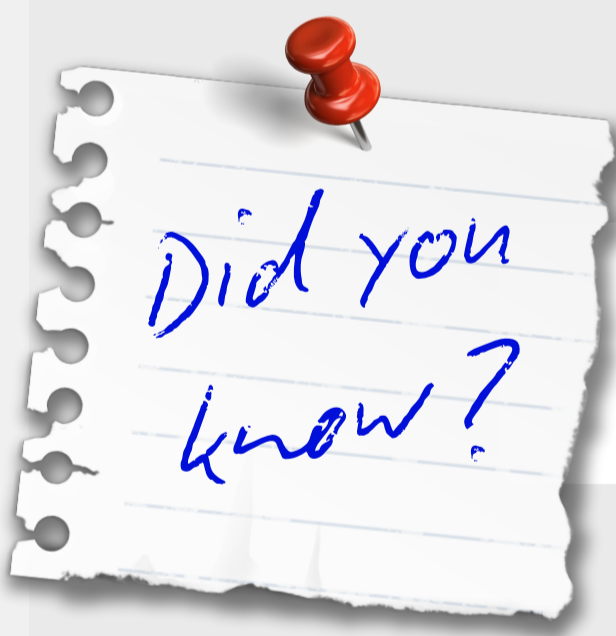

Sanitary & Janitorial

Chemical Processing

Building & Construction

Most new 55 gallon steel drums are about 34" tall. Often refurbished drums vary widely in height and are usually shorter than new. To overcome the height difference, simply tie off the overlapping end of the liner.

Which one... drum liner or drum insert

	2 Mil, 3 Mil & 4 Mil Drum Liners on Rolls	Rigid Seamless Drum Inserts
High speed mixing and pumping of viscous products		●
Adjust to varying drum heights	●	●
