

# How to Measure a: Pallet Cover

Add approximately 4" to either Width or Depth of shipment. For a loose fit: add half of depth to length.

## EXAMPLE:

$$(W) 46'' + 4'' = 50''$$

$$(D) 49'' = 49''$$

$$(L) 50'' + 25'' = 75''$$

## Size to Order:

50" x 49" x 75"

- Width measured side to side
- Length measured top to bottom
- Depth measured by expansion diameter
