

Carolyn Robinson is the Chief Financial Officer at International Plastics, with over 36 years of experience in the flexible packaging industry. Carolyn has a multitude of talents that are used in the financial sector of the business. She has played a crucial role in the success of International Plastics by helping to plant the strategically planned vision of the future back in 1998 and seeing it come to fruition. Introducing improvements to help motivate both the individual and the accounting department, as a whole, is one of her biggest aspirations.
